About the Department / School and Programme

About the School

KISS Deemed to be University, Bhubaneswar was established on 25th August, 2017 and it provides seven innovative Schools. The School of Comparative Tribal Languages and Literatures is one of the schools in which the Programme of English is running. The Programme of English offers two years M.A. course in English. KISS Deemed to be University is the first tribal institute in India which offers interdisciplinary courses in applied areas of Social Sciences. The subject covers various aspects of Languages and Literatures of Tribal in Social and Cultural Anthropology, Archaeology, and Cultural Studies. Social, religious, economic, political, ecological and environmental issues are taken into consideration to grasp insight of indigenous life, livelihood, and contemporary situation.

About the Department

The globality of English, rationality of Odia as well as Hindi, and the classicism and ancientness of Sanskrit are to be engaged in a comparative perspective both in teaching and research. In addition to these, certain courses in Tribal literature of various regions of India and aboriginals of the world are common to all the aforesaid Postgraduate Programmes in line with the objective of the school to promote comparative critical evaluation of the so called literature of civilized languages vis-a-vis tribal literature and their characteristically oral traditions.

Vision & Mission of the School

Vision-

Keeping the rich culture and linguistic diversity of the tribe in view, the Programme of English seeks to promote the study of literatures and cultures of the tribes together with the main stream English literary studies. A comparative perspective will be reflected in the teaching and research, with focus on the transactions not merely between the so called main stream and marginal or peripheral literatures but also the written and oral cultures.

Mission-

English Studies have lost their imperial trapping and English as the global language has multifarious cultural as well as literary forms across the globe, the mission of The Programme of English, KISS DU is to pursue English in a critically informed manner. The pedagogy involves integrating from a tribal and subaltern perspective with the structures of European/ British hegemonic concepts of cultural power. It also seeks to promote the study of the local tribal literature and culture in the context of the aboriginal literary forms across the globe.

Programme Overview

Programme Title:

Post Graduate Programme (English)

Programme Type:

Postgraduate

Programme Description

The Programme of Master of Arts in English comes under the School of Comparative Tribal Language and Literature to offer Master of Arts course since its inception in 2017. The courses of studies of M.A is revised in regular intervals and made up to date. The Department provides specialized teaching in Comparative Literature, Translation Studies, and Folk Literature & Tribal Studies.

M.A course adopted modern technology in editing and translation. Master of Philosophy and Doctor of Philosophy courses were introduced in the department since the academic year of 2017-18. The Department has been active in its research activities since its inception. The faculties of the department supervise dissertation for Masters Programme where students get anthropological and sociological field work exposure in the fourth semester.

Process of Curriculum Development

All Schools shall follow the standard KISS-DU curriculum development protocol:

1. Formation of Syllabus Committee with domain experts.
2. Consultation with stakeholders (students, alumni, employers, community).
3. Review and approval by School faculty.
4. Vetting by Board of Studies (BoS) with external experts.

5. Final approval by Academic Council.
6. Integration of NEP-2020, CBCS, NCrF, and NHEQF guidelines.

Definitions of Components

a) Ability Enhancement Courses (AEC): It refers to the courses enhancing competency in a Modern Indian Language (MIL) and in the English language with special emphasis on language and communication skills not literature, prose, poetry and novel etc.

b) Academic Bank of Credits (ABC): The ABC has been envisaged by the UGC to facilitate the academic mobility of students with the freedom to study across the HEIs in the country with an appropriate 'credit transfer' mechanism from one programme to another, leading to attain a Degree/Diploma/Certificate, etc.

c) Academic Year: Two consecutive semesters constitute one academic year.

d) Choice Based : The students select courses from the prescribed courses i.e., Major, Minor, Multidisciplinary, Ability Enhancement Course (AEC), Skill Enhancement Course (SEC), Value Added Course (VAC), Summer Internship/ Lab/Research.

e) Major is the subject of main focus.

f) Credit Based Semester System (CBSS): Under the CBSS, the requirement for awarding a degree/diploma/Certificate is prescribed in terms of number of credits to be earned.

g) Credit: A unit by which the course work is measured. One credit is equivalent to one hour of lecture or tutorials or two hours of practical work/field work per week in a semester.

h) Minor Course helps a student to gain a broader understanding beyond the major discipline. The subjects mentioned in the minor (in the course structure table) will be offered only if a minimum of 10 students opt for that particular subject.

i) Multidisciplinary: It refers to the courses that a student can opt from other disciplines in order to broaden the intellectual experience.

j) Skills Enhancement Courses (SEC): It refers to the courses aiming at imparting practical skills, hands-on training, soft skills, etc., to enhance the employability of students.

k) Summer Internship/Apprenticeship/Summer Project: It refers to experiential exposure of a student. Summer Internship of 6-8 weeks duration after the completion of the fourth semester, followed by a project report and viva-voce examination during the fifth semester has been made compulsory to enable the students to have hands on experience of real-life business situations.

l) Research has been provided in the Eighth semester (for students securing 7.5 CGPA or above) involving application of knowledge in exploring/critical analysis/solving issues related to a real-life situation.

m) Value Added Courses: It refers to the courses enabling the students to acquire and demonstrate the knowledge and understanding of contemporary society.

NCrF-Aligned Components (National Credit Framework)

1. Operational Definition of Credit (NCrF Standard)

"1 Credit = 30 Notional Learning Hours."

A standard 4-credit course = 120 Notional Learning Hours.

NCrF-Compliant Course Engagement Table

Component	Operational Definition	Hours (Example for 4-credit course)
Face-to-Face Lectures	Concept delivery, interactive instruction	45
Tutorials / Labs / Field	Hands-on practice, experimentation	30
Independent Self-Study	Pre-reading, journal review	20
Continuous Assessment	Assignments, quizzes, mid-term	12
Final Semester Exam Preparation	Revision, project completion	13
Total Notional Hours	**Must equal 30 hours × credits**	**120**

MOOC Courses (SWAYAM and SWAYAM Plus)

According to the UGC guidelines integrated into the new curriculum structures, Higher Education Institutions (HEIs) are permitted to allow students to take up to 40% of their total courses in a semester through the national MOOC platform, SWAYAM (or SWAYAM Plus for industry-aligned courses).

Credits earned via SWAYAM are mapped directly against the appropriate NHEQF academic level and digitally stored in the student's Academic Bank of Credits (ABC) to count toward their final degree, diploma, or certificate.

NCrF Category Wise Credit Distribution (UGC CCFUP Compatible) (for UG Programme)

Semester	Discipline Specific courses- core		Minor		MDC/IDC		AEC		SEC/ Internship /Dissertation		VAC		Grand Total Credits
	No. Of Papers	Total Credits	No. Of Papers	Total Credits	No. Of Papers	Total Credits	No. Of Papers	Total Credits	No. Of Papers	Total Credits	No. Of Papers	Total Credit

Total Credits for the Course		80		32		9		8		23		12	162

These exit awards correspond to progressive NHEQF / NSQF levels and are fully NCrF-compliant for credit accumulation, mobility and re-entry through the Academic Bank of Credits.

Skill Enhancement Courses (SEC), Multidisciplinary Courses (MDC), value-added courses and internships are creditised as per NCrF, recognising vocational, experiential and community-based learning alongside academic coursework. These courses are designed at appropriate NSQF levels, with clear competency descriptors and notional hours.

Course Title: EN40092

Course Name: Application of Artificial Intelligence in Literary Studies

Credit: 04

Course Objectives:

- To introduce students to the intersection of Artificial Intelligence (AI) and Literary Studies exploring how AI technologies are transforming traditional literary analysis, creating new forms of literature and enhancing the understanding of texts.
- To understand the fundamental concepts of Artificial Intelligence and its relevance to literary analysis.
- To explore various AI applications such as Natural Language Processing (NLP), machine learning and deep learning in literary criticism.
- To analyze how AI reshapes traditional literary theory, authorship and textual interpretation. and critically engage with AI-generated texts and their implications for authorship, creativity, and the future of literary studies.

Course Outcomes:

CO1: Demonstrate knowledge of Artificial Intelligence concepts, including Machine Learning, Natural Language Processing, Deep Learning, and their applications in literary studies. Identify the role of AI in literary criticism, digital humanities, and computational text analysis.

CO2: Interpret literary texts using AI-assisted analytical methods such as sentiment analysis, text classification, authorship attribution, and thematic analysis. Explain the relationship between AI technologies and evolving literary theories, authorship, and textual interpretation.

CO3: Apply AI tools and Natural Language Processing techniques to analyze literary texts and support digital humanities research. Use computational approaches to examine genre, style, narrative structure, and linguistic patterns in literature.

CO4: Critically analyze AI-generated literature and evaluate issues of creativity, authorship, originality, plagiarism, bias, and ethical responsibility. Compare human-authored and AI-generated texts using literary and computational perspectives.

CO5: Develop research-based projects integrating AI with literary studies while critically evaluating the future of AI in literary scholarship and education. Assess the ethical, philosophical, and cultural implications of Artificial Intelligence in literature and the humanities.

Course content:

Unit 1: Introduction to Artificial Intelligence and Literary Studies

- Overview of Artificial Intelligence: Definitions, history and development of AI.
- AI in everyday life: Role of AI in technology, communication, and media.
- Basic AI concepts: Machine Learning (ML), Natural Language Processing (NLP), Deep Learning and Neural Networks.
- Early applications of AI in the Humanities: How AI has been used in literary studies (e.g., computational linguistics, digital humanities).

Unit 2: Natural Language Processing (NLP) and Textual Analysis

- Introduction to NLP and its significance in Literary Studies.
- Key NLP techniques: Tokenization, Part-of-Speech Tagging, Sentiment Analysis, Named Entity Recognition (NER) and Text Classification.

- Application of NLP in analyzing literary texts: Genre classification, thematic analysis, authorship attribution, and sentiment analysis of poetry and prose.
- Case studies: NLP applications in literary criticism (e.g., analyzing Shakespeare, Jane Austen and modern texts).

Unit 3: AI in Literary Creation and Authorship

- AI-generated literature: How AI systems (e.g., GPT, OpenAI) create poetry, short stories and novels.
- The concept of authorship in the age of AI: Is an AI-created work "authored"? Who owns AI-generated texts?
- Ethical considerations: The implications of AI in literary production, authorship rights, and plagiarism.
- Exploring AI-generated narratives: A comparison of human-authored and AI-authored works.

Unit 4: The Future of AI in Literary Studies

- The changing landscape of literary criticism with AI tools: Quantitative approaches to literary studies.
- New forms of literature enabled by AI: Interactive storytelling, AI-generated poetry, virtual reality narratives, and transmedia storytelling.
- AI in the classroom: Teaching literature through AI tools, applications for students.
- Ethical concerns: Bias in AI, the role of human interpretation and the future of AI in the humanities.

Course Name: Fiction on the Issues of Land, Environment and Justice

Credit: 04

Course Objectives:

- To analyze literary texts and their narratives to understand the complex environmental and social challenges presented.
- To build emotional intelligence and understanding for characters and communities impacted by environmental problems and systemic injustice.
- To connect literary themes to real-world environmental policies, resource extraction, and social justice movements.
- To inspire students to think creatively about environmental issues and to express their understanding through analytical writing and discussion.

Course Outcomes:

CO1: Demonstrate knowledge of literary representations of land, environment, tribal life, and ecological justice. Identify key concepts of environmental humanities, indigenous studies, and postcolonial ecocriticism.

CO2: Interpret fictional narratives within the contexts of environmental degradation, displacement, tribal identity, and social justice. Explain the relationship between literature, ecology, and indigenous knowledge systems.

CO3: Apply ecocritical, postcolonial, and environmental justice theories to analyze selected literary texts. Relate literary themes to contemporary environmental policies, resource conflicts, and sustainability issues.

CO4: Analyze the representation of land, environmental ethics, cultural identity, and resistance in tribal and marginalized communities. Evaluate the impact of colonialism, development, and resource extraction on ecological and social justice.

CO5: Develop research-based interpretations of environmental fiction through academic writing and presentations. Critically assess literature as a tool for promoting ecological consciousness, ethical responsibility, and sustainable development.

Title: Research Methodology

Credit: 04

Course Objectives:

- To introduce students to the basic principles, concepts, and processes involved in research methodology.
- To develop a comprehensive understanding of different research methods, approaches, and designs and to formulate research questions, hypotheses, and objectives.
- To provide the students with the knowledge to select appropriate data collection methods and sampling techniques, familiarizes them with data analysis techniques, including quantitative and qualitative methods and enhances their abilities to critically evaluate and interpret research findings.
- To develop skills in organizing and presenting research results effectively.

Course Outcomes:

CO1: Demonstrate knowledge of research methodology, research design, hypotheses, and problem formulation. Identify different research approaches, methods, and ethical principles in academic research.

CO2: Interpret research questions, objectives, theoretical frameworks, and appropriate research designs. Explain qualitative, quantitative, and interdisciplinary methods used in literary and social science research.

CO3: Apply suitable methods of literature review, data collection, sampling, citation, and research documentation. Use major literary theories and research tools to conduct systematic academic inquiry.

CO4: Analyze and interpret qualitative and quantitative research data using appropriate analytical techniques.

Evaluate research findings, identify limitations, and maintain academic integrity through ethical research practices.

CO5: Prepare research proposals, dissertations, and scholarly papers following accepted academic conventions. Critically evaluate published research while applying ethical standards, citation practices, and plagiarism guidelines.

Course Contents:

Course Objectives

This course introduces students to the principles of research ethics, academic integrity, and responsible publication practices. It develops awareness of plagiarism, research misconduct, predatory publishing, and ethical decision-making in scholarly work. The course equips students with skills to evaluate research quality, use citation databases and metrics responsibly, and communicate research findings with honesty, transparency, and professional integrity.

Course Outcomes:

CO 1: Explain the fundamental principles of research ethics, scientific integrity, and responsible publication practices. Understand the importance of ethical conduct in academic research.

CO 2: Identify research misconduct, plagiarism, and predatory journals using appropriate ethical guidelines and plagiarism detection tools. Apply best practices to ensure research quality and transparency.

CO 3: Evaluate research publications using indexing and citation databases, research metrics, and open-access resources. Interpret scholarly impact through ethical and informed assessment.

CO 4: Demonstrate ethical decision-making and responsible research practices in academic writing and publication. Communicate research findings with honesty, credibility, and professional integrity.

CO5: Communicate research findings with honesty and professional integrity. Promote transparency, accountability, and credibility in scholarly work.

Course Contents:

Unit: I- Philosophy and Ethics

- Introduction of philosophy: Definition, nature and scope, concept, branches
- Ethics: Definition, moral philosophy, nature of moral judgments and reactions**.**

Unit: II- Scientific Conduct:

- Scientific Misconducts: Falsification, Fabrication and Plagiarism (FFP)
- Selective Reporting and misrepresentation of data

Unit: III- Publication Ethics and Practice

- Publication Ethics: Definition, introduction and importance
- Publication misconduct: definition, concepts, problems that lead to unethical behaviour.
- and vice versa, types
- Intellectual honesty and research Integrity

Unit-IV- Open Access Publishing:

- Best practices/standards setting initiatives and guidelines: COPE, WAME etc.
- Violation of publication ethics, authorship and contributor ship

- Identification of publication, misconduct, complaints and appeals
- Predatory publishers and journals
- Open access Publications and Initiatives.
- SHERPA/ROMEO online resource to check publisher copyright and self-achieving.
- Policies.
- Software tools to identify predatory publications developed by SPPU.
- Journal finder/journal suggestion tools viz. JANE, Elsevier Journal finder, Springer. Journal suggested, etc.

Course Title: Theme-based Movies and Tribal Museum Visit

Credit: 04

Course Objectives:

- To create a new paradigm in education which will focus on creating connection across time, place & culture and understand & connect to the fast-changing tribal world.
- To critically examine the role of language in tribal life, culture & their development.
- To connect with the current events: A short documentary can expose students to any number of global issues, reduce isolation, and allow students to connect to innovations and inspiration from sources beyond their immediate environment.
- To examine and analyse the massive body of rituals and oral traditions, dance, music and performance through documented movies.
- To incorporate reflective writing assignments: A visit (or) a short documentary story can increase students' literacy with connections to a source, to self, and to the world. Here students use the film/visit as a source to justify their reasoning.

Course Outcomes:

- **CO1:** Develop social and emotional awareness by engaging with films, documentaries, and museum exhibits.
- **CO2:** Understand and connect with diverse tribal cultures, histories, and contemporary issues across time and space.
- **CO3:** Connect cinematic and museum experiences with current global and local events.
- **CO4:** Examine and interpret tribal rituals, oral traditions, music, dance, and performance through visual documentation.
- **CO5:** Enhance observational and analytical skills by engaging with visual and experiential learning resources and practice reflective writing, connecting experiences from films or museum visits to self, society, and broader cultural contexts.

Course Objectives:

- Increase knowledge and requisite skills of participants on the use of SPSS

- enable the students make the most of this powerful software package while allowing them to work independently with SPSS on their own data
- Provide a solid foundation for advanced data analysis work.
- Increase proficiency of scholars on the use of Basic computer Applications and SPSS.

Course Learning Outcomes:

Cos	**Course outcomes**	**Mapping COs with POs (High-3, Medium-2, Low-1)**
CO1	Have idea about basic computer hardware and software.	PO1 (3)
CO2	Command on MS-office package for organized compiling and presentation and Learn using different analytical and research related software packages.	PO2(3)
CO3	Learn how to formulate and test different hypotheses.	PO3(3)
CO5	Conversance with the use of SPSS for data analysis and decision making.	PO3 (3), PO5(2)

Course Duration: 60 hours Course

Syllabus

Unit – I:

Computer Basic and Computer Fundamental: Hardware and Software. Functional units of computer. Operating Systems: Windows, Linux. Data communication and network topology, IP address, Internet, E-mail, and Web pages.

Unit-II:

Microsoft word: Creating and editing documents, formatting text and paragraph, formatting documents, creating and formatting tables, illustration documents with graphics. Creating a web page, mail merge. Working with charts and diagrams

Unit-III:

Microsoft Excel: Building and editing worksheets, formatting a worksheet, working with charts, working with formulas and functions, enhancing charts and worksheets Using analysis tools, analyzing data with pivot tables.

Unit-IV

Microsoft PowerPoint: Creating a presentation with Microsoft PowerPoint, modifying a presentation, inserting objects into presentation, finishing a presentation, enhancing charts, inserting illustration, objects and media clips.

Unit–V:

SPSS, Descriptive Analysis: Mean, Median, Mode, Standard Deviation and Correlation. Regression Analysis, t-test, chi-square test, R- Square test, ANOVA using SPSS

List of Experiments:

1. Create and format a **table** in Word with at least 5 rows × 5 columns; apply borders, shading, and sorting.
2. Perform a **Mail Merge**: prepare a personalized invitation letter using an Excel data source (name, address).
3. Build a **student mark sheet** with fields (Name, Roll, Subject Marks). Apply formulas for **Total, Average, Percentage, and Grade**.
4. Format the worksheet (merge cells, adjust column width, borders, number formatting). Apply **conditional formatting** (highlight marks <40 in red).
5. Create different **charts** (bar, pie, line) for student performance or sales data. Enhance charts with titles, legends, and labels.
6. Demonstrate **formulas and functions**:

   SUM, AVERAGE, MAX, MIN, COUNT, IF

7. Create a **PowerPoint presentation** (minimum 8 slides) on "Emerging Technologies in Computing." Include title slide, content slides, conclusion, and references.
8. Create a **PowerPoint presentation** (minimum 10 slides) on "Emerging Trends in Computer Science." Include:

   1. Slide designs, transitions, and animations
   2. *Insert images, charts, and SmartArt*
   3. Add **audio or video clips**

9. Input a dataset of student scores into SPSS. Perform **Descriptive Statistics**: Mean, Median, Mode, Standard Deviation, and Correlation. Generate graphs (histogram, scatter plot).
10. Using SPSS, perform **Hypothesis Testing**:

    - **t-test** for comparing two groups
    - **Chi-square test** for categorical data
    - **ANOVA** for comparing more than two groups
    - Report **R-square** and regression results with interpretations

Course Structure (Semester-wise)

Semester IV

Course Code: FD50082
Course Title: Fieldwork and Dissertation
Credit: 20

Course Objectives:

- To provide a wide-ranging understanding of the Literary and Language Related Research Work and make students acquainted with various types of data collection.
- To introduce the learner to the principles, techniques and tools of academic and research report writing.
- To learn and apply principles and techniques of report writing for effective dissemination of the academic and research findings.

Course Outcomes:

CO1: Demonstrate knowledge of research methodologies, fieldwork techniques, and data collection methods in literary and language studies. Identify appropriate research tools and ethical practices for conducting scholarly research.

CO2: Interpret literary, linguistic, and field-based data using suitable qualitative and interdisciplinary research approaches. Explain the relationship between research design, data interpretation, and academic inquiry.

CO3: Conduct independent fieldwork by applying appropriate research methods, documentation techniques, and analytical tools. Prepare a well-structured dissertation following accepted academic writing and citation conventions.

CO4: Analyze field-based findings through critical interpretation and evidence-based discussion. Evaluate primary and secondary sources to produce coherent and methodologically rigorous research outcomes.

CO5: Present and defend research findings effectively through seminars, dissertation writing, and viva voce examinations. Critically evaluate research contributions while demonstrating academic integrity, originality, and professional ethics.

Course Contents:

Field Work and Report Writing: Each student shall have to undergo training for learning and use of different techniques of scientific data collection during 15 days of fieldwork under the supervision of a teacher, as nominated by the Head of the Department in a tribal / rural area. The exact date of commencement of fieldwork shall be announced by the department. Student failing to complete the fieldwork in a particular year can only clear the paper by completing field work in next year.

Dissertation: Dissertation is to be prepared by the student under the supervision of the concerned teacher. The student is required to submit the dissertation through the supervising teacher to the Head of the Department for its evaluation at least fifteen days in advance of the date notified for examination. The dissertation shall be evaluated by an external examiner in consultation with the internal examiner (the supervising teacher). The candidate shall be awarded grade both by the internal and external examiners on the basis of his / her dissertation, seminar presentation and viva voce. Evaluation pattern will be 50 marks for dissertation, 30 marks for presentation and 20 marks for viva voce.

Viva-voce on Field works and Dissertation include for Evaluation

Dissertation based on 30 day's fieldwork	50 Marks
Seminar Presentation and Field Dairy	30 Marks
Viva voce test on dissertation	20 Marks

The Dissertation has to be submitted by the student positively before the end semester Examinations.
