About the School

The School of Tribal Culture, Philosophy and Eco-Spiritualism, KISS Deemed to be University, established in 2018, addresses emerging academic, developmental, and societal needs through interdisciplinary and multidisciplinary programmes. The school strives to meet local, regional, national and global standards while advancing tribal resource management, indigenous knowledge systems, and sustainable development.

About the Department

The Department of Political Science, under the School of Tribal Culture, Philosophy and Eco-Spiritualism, KISS Deemed to be University, established in 2018, addresses emerging academic, developmental and societal needs through interdisciplinary and multidisciplinary programmes. The Department strives to meet local, regional, national and global standards while advancing tribal resource management, indigenous knowledge systems and sustainable development.

Vision & Mission of the School

Vision

To emerge as an internationally acclaimed School recognized for excellence in teaching, research, consultancy, outreach, skill development and social entrepreneurship, while promoting tribal cultural heritage and its diversity.

Mission-

- To foster all-round development through multi-faceted education.
- To focus on sustainable resource management through innovative courses.
- To engage with communities to promote entrepreneurship and leadership.
- To manage resources effectively to create employment and self-employment opportunities.
- To recognize, commemorate and celebrate indigenous cultural memories of the empowering icons and processes.

Programme Overview

Programme Title: M. A. in Political Science

Programme Type: Postgraduate

Programme Description

The Two-Year Post-Graduate Programme in Political Science at KISS Deemed to be University is designed in accordance with the National Education Policy (NEP) 2020. This programme consists of four semesters with a total of 19 papers, including 11 Core Papers/Courses, 4 Special Papers, 3 Tribal Papers, and 1 Field Work and Dissertation Paper with 20 Credits. The total credits for the programme are 90.

The M.A. Political Science programme is designed to provide students with a comprehensive understanding of core Political Science subjects like Political theory, Public Administration, International Relations, Political thought both Western and Indian, comparative politics, Indian Government and politics. It places special emphasis on the study of tribal societies, indigenous knowledge systems and the rich historical and cultural heritage.

Process of Curriculum Development

The curriculum has been developed following the standard KISS-DU curriculum development protocol:

1. Formation of Syllabus Committee with domain experts.
2. Consultation with stakeholders (students, alumni, employers, community).
3. Review and approval by School faculty.
4. Vetting by Board of Studies (BoS) with external experts.
5. Final approval by Academic Council.
6. Integration of NEP-2020, CBCS, NCrF, and NHEQF guidelines.

Eligibility for Admissions with No. of Seats

As per the admission guidelines and brochure of the KISS Deemed to be University.

Examination Pattern

The medium of examination is English, which will be reflected in the final grade sheet/certificate. Provided that for a language subject, answers are to be in that language. Sanskrit may be written in Odia script, but the language has to be Sanskrit.

Duration of the Examinations – Mid Semester & End Semester

- **End Semester Examination:** 2.5 hours
- **Mid Semester Examination:** 1 hour
- **Practical Examination:** 2 hours

The School of Tribal Culture, Philosophy and Eco-Spiritualism shall have a designated faculty as Examination Coordinator as decided by the Vice Chancellor in addition to the Controller of Examinations of the University.

Continuous Evaluation and Mid-Semester Examination

a) Mid-semester examination will be of 1-hour duration for 20/10 marks (20 for subjects having no practical and 10 for subjects with practical papers). There shall be no pass mark in the Mid-Semester Examination.

b) The Mid-Semester Examination shall be conducted and valued by the Faculty teaching the corresponding paper. A student who fails to appear in a Mid-Semester Examination **will be allowed one more chance** to take the same examination before appearing for the concerned term-end examination. There will be no provision to re-appear in the Mid-Semester Examination for improvement.

c) For subjects with practicals, there will be a Mid-Semester practical examination carrying 10 marks.

d) The University authority shall preserve the answer scripts of the End Semester examination for **12 months** from the date of publication of result for reference.

e) A student must appear for the mid-semester examination positively. Absence will be considered as fail; however, the candidate may be allowed to appear before commencement of the concerned Term-End examination under special case duly considered by the Programme Head.

Distribution of Marks in End Semester and Continuous Evaluation

(Irrespective of credit in a course/Paper)

Course Type	Maximum Marks	Semester-End theory Mark	Continuous Evaluation Marks /Sessional	Mid Semester theory Mark	Semester-End and Practical Mark	Mid Semester Practical Mark
Without Practical	**100**	**60**	**20**	**20**	**----**	**--**
With Practical	**100**	**50**	**10**	**10**	**20**	**10**
Only Practical	**100**	**------**	**-------**	**-------**	**60**	**40**

Distribution of Sessional Marks:

Course Type	Maximum Mark	Mid Semester	Attendance	Surprise Test/Quiz/Viva	Assignment/ Presentation
Without Practical	**40**	**20**	**Above 95%- 5 Marks** **85%-94%- 4 Marks** **75%-84%- 3 Marks**	**10**	**05**
With Practical	**30**	(Theory 10 + Practical 10)=20		**05**	**Nil**
Only Practical	**40**	Practical 30		**5**	

Examination Question Pattern of End Term Examination

The evaluation process may cover summative and formative aspects and assess understanding, applications, articulation, program and course outcomes.

Question Pattern		With Practical	Without Practical
Part-I –Objective	**Answer in MCQ/ in one word/in one sentence as directed**	**1x5=5**	**1x6=6**
Part-II- Very Short Type	**Answer within 50 words. Answer any 3 out of 5 questions (with practical) and answer any 5 out of 7 questions (without practical)**	**2x3=6**	**2x5=10**
Part-III- Short Type	**Answer within 250 words Answer any 3 out of 5 questions (with practical) and answer any 4 out of 6 questions (without practical)**	**5x3=15**	**5x4=20**
Part-IV- Long Type	**Answer within 800 words. Answer any 3 out of 5 questions**	**8x3=24**	**8x3=24**
Total		**50**	**60**

For Practical Paper		**One Major Experiment-10 Record- 05 Viva voce-05**	---

Examination Question Pattern of Mid Semester Examination

Question Pattern		**With Practical**	**Without Practical**
Part-I –Objective	**Answer in MCQ/ in one word/in one sentence as directed**	**1x3=3**	**1x6=6**
Part-II- Very Short Type	**Answer within 50 words. Answer any 1out of 2 questions (with practical) and Answer any 2 out of 3 question (without practical)**	**2x1=2**	**2x2=4**
Part-III- Short Type	**Answer within 250 words Answer any 1 out of 2 questions (with practical) and answer any 2 out of 3 questions (without practical)**	**5x1=5**	**5x2=10**
Total	**10**		**20**
For Practical Paper		**One Major Experiment -5 Record- 02 Viva voce-03**	---

Award of Degree:

A Degree certificate under the official seal of the University and signed by the Vice-Chancellor shall be presented at the Convocation or in absentia to each of the successful students of a particular degree. The

Controller of Examinations shall issue the mark/grade sheet of each semester to the candidates in the sheet of each semester to the candidates in the prescribed format.

Programme Educational Objectives (PEOs)-

School / Department of Tribal Culture, Philosophy and Eco-spiritualism under KISS Deemed to be University offer two years Post Graduate Programme of Political Science.

PEO1. From the very beginning, students of the programme of political science under the School of Tribal Culture, Philosophy and Eco-spiritualism will be exposed to fieldwork and research methodology, so that the students can do research and write independently.

PEO2. To equip students with a good academic environment to demonstrate high levels of communication skills, creativity, critical thinking, responsibility, teamwork and leadership in their career.

PEO3. The Programme of Political Science aims at grooming students to cope with a new and broad emerging academic environment where alternative viewpoints and new knowledge are required and appreciated for policy research and development both at national and international levels.

PEO4. The faculty members of this programme must be highly qualified and dedicated to the development of students.

PEO5. Students interested in administrative services and competitive exams will benefit from the papers offered in this programme.

Programme Outcomes-

PO1. Moral & Ethical Values: To know the moral and ethical codes of different philosophers and political thinkers of the past, in which a student of this programme can learn some valuable ethical ideas for building of his career. To recognize different value systems, including your own understanding the moral dimensions of your decisions,

PO2. Disciplinary Knowledge: To acquire knowledge about culture, philosophy and political organizations of modern India as well as world. The students can get the knowledge of technical and skill education.

PO3. Communication Skills: For the effective communication, the programme will provide a Communicative English paper for students to speak, read, write and listen clearly in person, and through electronic media in English and in one Indian language, i.e., Odia, and make meaning of the world by connecting people, ideas, books, media and technology.

PO4. Critical Thinking: To demonstrate a critical aptitude and reflective thinking to systematically analyze the existing scholarship and expand critical questions and the knowledge base in the field of studying historical data using digital resources. Students will learn to understand, analyze, and evaluate both evidence and arguments. Students will learn to explain how and why important political events happened and changed over time.

PO5. Problem solving & Analytical reasoning: The students, because of their exposure to various core papers in political science, are likely to develop problem-solving ability and analytical reasoning.

PO6. Research-Related Skills: The students are encouraged to develop a research bent of mind and made to understand the importance of research methods in this regard, which are needed to identify the research gaps and developments in various aspects of political science and tribal culture studies.

PO7. Cooperation/Teamwork: To communicate ideas and information effectively to a range of audiences for a variety of purposes and contribute positively and collaboratively to achieve common goals.

PO8. Digital Literacy: Capability to use various technical ICT tools (Data analytics) for exploring, analysing, and using the information for study and research work.

PO9. Experiential & Life-long learning: To acquire the ability to engage in independent and life-long learning in the broadest context of socio-cultural changes. Students are expected to gain knowledge and learn new skills and acquire the capability of self -paced and self-directed learning throughout life, resulting in personal development and career advancement. Students would seek hands-on learning to perform in the real world by acquiring knowledge, skills, and attitude.

PO10. Leadership Qualities: Students are expected to have qualities like high integrity, accountability for actions, a sense of empathy, humanity, flexibility, positivity, influencing, and a vision. They are expected to engage in professional behaviour and have the potential to take leadership roles in their preferred occupations/careers and communities.

PO11. Professional & Decision-making Skills: Students are expected to exhibit skills that would demonstrate what they are capable of contributing to their job role and fulfil duties of the position they would seek. To enable students to achieve professional integrity and professional behaviour, as well as the skills and attitudes which are very necessary to plan for one's career to stay in the current world. Students are also expected to show proficiency in choosing between two or more alternatives and be able to defend with the right points of contact involved in the suitable situation.

PO12. Environment Awareness and Sustainability: To make students aware about environment, nature and their sustainability**.** Study of the paper on Tribal eco-spiritualism will enable students to understand the issues of environment and would endeavour for their long-term solutions.

Programme Specific Outcomes (PSOs)

These Outcomes are specific to a programme in addition to the POs

PSO1. To acquire an adequate conceptual base of political science and better understanding of the subject and its practical details.

PSO2. To conduct research in terms of form of formality hypothesis and development frames of interaction with other social sciences and attain a certain level of interdisciplinary approach.

PSO3. To demonstrate the social, political, economic, and religious beliefs & practices of the tribals of India. In fact, six tribal special papers are provided in this program for the understanding of students in various aspects of tribal culture.

PSO4. To produce knowledgeable and skilled students who can know the various aspects of Indian politics as well as world politics and to defend their distinct ethno-cultural heritage by promoting and preserving their culture, philosophy, customs,to make every possible effort to uplift and sustain their cultural identity.

PSO5. To acquire knowledge of students through seminars, students will present their research or a summary of another's research in an organized, coherent, and compelling fashion. Also to organize national seminar/workshop and symposiums to enrich the research and teaching of the programme.

Mapping with Cross-Cutting Issues

SDG Mapping for this Course

SDG #	SDG Title	Nature of Contribution
SDG 4	Quality Education	Promoting critical thinking and deep theoretical literacy necessary for informed global citizenship.
SDG 5	Gender Equality	Analysis of power structures and rights that underpin institutional gender biases.
SDG 10	Reduced Inequalities	Theories of Equality and Justice directly address the reduction of social and political disparities.
SDG 16	Peace, Justice & Strong Institutions	Study of State theories, Justice, and Power contributes to building inclusive and accountable institutions.

WESTERN POLITICAL THOUGHT

Paper Code: PO40009

Course Objectives

The objective of this postgraduate syllabus paper is to cultivate a deep understanding of the foundational ideas and major traditions of modern political thought through the works of key thinkers such as Niccolò Machiavelli, Thomas Hobbes, John Locke, Jean-Jacques Rousseau, Georg Wilhelm Friedrich Hegel, Karl Marx, Jeremy Bentham, and John Stuart Mill. It aims to develop critical thinking and analytical skills by engaging students with diverse philosophical perspectives on the state, liberty, equality, justice, and rights. The course further seeks to encourage comparative and reflective analysis of political ideologies, enhance the ability to interpret classical texts, and enable students to relate theoretical insights to contemporary political and social contexts, thereby preparing them for advanced research and informed academic or professional engagement.

Course Outcomes

CO1: Students will be able to explain and critically analyze the political ideas of Niccolò Machiavelli and Thomas Hobbes, particularly their views on power, authority, and the nature of the state.

CO 2: Students will demonstrate an understanding of social contract theory and liberal political thought through the works of John Locke and Jean-Jacques Rousseau.

CO3: Students will be able to interpret and evaluate the philosophical contributions of Georg Wilhelm Friedrich Hegel and Karl Marx, with special reference to dialectical materialism.

CO 4: Students will analyze the principles of utilitarianism as developed by Jeremy Bentham and John Stuart Mill, and assess their relevance to ethics and public policy.

CO 5: Students will develop critical thinking and comparative skills to relate classical political theories to contemporary political issues and debates.

Course Contents

Unit- I- Machiavelli, Hobbes

Unit- II- Locke, Rousseau

Unit- III - Hegel, Karl Marx

Unit-IV- Jeremy Bentham, J.S. Mill

PUBLIC ADMINISTRATION

Paper Code: PO40004

Course Objectives

The objective of this postgraduate syllabus paper in Public Administration is to provide students with a comprehensive understanding of the nature, scope, and evolution of the discipline, along with its relevance in both developed and developing societies. It aims to familiarize learners with major organizational theories and administrative approaches, enabling them to critically examine how administrative structures and processes function in diverse contexts. The course seeks to develop analytical skills by engaging students with key concepts such as

Course Outcomes

CO1: Students will be able to explain the nature, scope, and evolution of Public Administration, and assess its role in both developed and developing societies.

CO2 : Students will critically analyze major organizational theories, including classical, scientific management, human relations, and rational choice approaches, and evaluate their relevance in administrative practice.

CO 3: Students will demonstrate an understanding of various approaches to Public Administration, such as comparative, new public administration, new public management, feminist, and public service perspectives, and apply them to contemporary governance issues.

CO 4: Students will be able to examine key administrative concepts such as leadership, motivation, and organizational communication, including the communication principles proposed by Chester Barnard.

CO 5: Students will analyze the dynamics of development administration, including models like Fred W. Riggs' framework, and evaluate the impact of citizen participation, liberalization, and globalization on modern administrative systems.

Course Contents

Unit-I

Nature and Scope of Public Administration, Development of Public Administration as an academic discipline, Public and Private Administration, Role of Public Administration in Developed and Developing Countries.

Unit-II

Theories of Organization: The Classical Theory, The Scientific Management Theory, Human Relations Theory, Rational Choice Theory.

Unit-III

Approaches to Public Administration: Comparative Public Administration, New Public Administration, New Public Management, Feminist Approach, New Public Service.

Unit-IV

Concepts of Public Administration: Leadership: Types, Functions and Theories, Motivation, Organisational Communication: Theories and Principles, Chester Bernard‘s Principles of Communication.

Unit-V

Development Administration: Nature, Issues and Characteristics; Riggs‘s Model; Citizens‘ Participation in Administration, Changing Nature of Public Administration in the era of Liberalisation and Globalisation.

SPECIAL PAPER – I (Choose any one)

(A) DEMOGRAPHY, DEMOCRACY AND DEVELOPMENT: AN INDIAN PERSPECTIVE

Paper Code: DD40032

Course Objectives:

The paper is designed to educate students about the population trends in India. It also aims to help students understand the demographic transition in Odisha.

Course Outcomes

CO1: Students would develop knowledge about democratic trends in India

CO 2: They would also understand the demographic dividends the country is set to enjoy

CO3: Student will realise the increasing importance of youth in Indian politics.

CO4: Student also would understand the changing democratic profile of Odisha.

Course Contents

Unit I: Population trends in India and States; regional population challenges

Unit II: Demographic transition in Odisha;
Basic demographics of marginalized groups: Tribals and transgender

Unit III

Demography and Development; Education, Health, Social Development

Unit IV: Policies for youth in India

Text books

1. "Social Exclusion and Adverse Inclusion: Development and Deprivation of Adivasis in India" by Dev Nathan and Virginius Xaxa
2. "Social Exclusion: Essays in Honour of Dr. Bindeshwar Pathak" edited by Sanjay Paswan

Suggested reading list

Cross-cutting issue	Level Integration	Illustration components
Professional Ethics	High	Data integrity in census reporting, ethical research on marginalized groups.
Gender	High	Analysis of sex ratios, demographic status of transgender groups in Odisha.
Human Values	Medium	Empathy towards marginalized tribals and social development rights.
Environment Sustainability	Medium	Population pressure on regional resources and sustainable demographic transitions.

SDG Mapping for this Course

SDGs	SDG Titles	Nature of contribution
SDG 3	Good Health and Well-being	Focus on health indicators in demographic transition.
SDG 4	Quality Education	Unit III focuses on education as a pillar of development.
SDG 5	Gender Equality	Coverage of basic demographics of transgender and marginalized groups.
SDG 10	Reduced Inequalities	Analyzing regional challenges and tribal population demographics.

SPECIAL PAPER – I (Choose any one)

ACTIVE CITIZENSHIP AND DEMOCRATIC VALUES

Paper code: AC40032

Course Objectives

Citizenship education develops knowledge, skills and understanding that students will gain through full participation in society as an active and responsible citizen. In this paper students learn about democracy, politics, parliament and voting as well as human rights, justice, media literacy, the law and the economy. They would also learn the skills of active citizenship through practical opportunities to address issues of concern to them. The paper would bring to life change by using real issues, case studies, people and events in local to national contexts. This paper provides students with a setting to critically examine and evaluate the multiple expressions of citizenship in democratic governance. As such, it aims to facilitate their exploration of the interaction, challenges, opportunities, and limits of citizenship and governance in theory and in practice. In particular, apart from class room teaching students will contextualize citizenship and governance through the actual practice of citizenship based on their involvement in a governance and social engineering.

Course Outcomes

CO1: Students are expected to understand the meaning and significance of the concept of citizenship and skillfully interpret and evaluate through observation, communication, information and argumentation its link to democratic governance.

CO2: Enable the students to internalize and demonstrate the values of social responsibility, responsible citizenship, and commitment to the advancement of common good, justice, freedom, human rights, and rule of law.

CO3: Enable students to internalize and demonstrate the values of social responsibility, responsible citizenship, and commitment to the advancement of common good, justice, freedom, human rights, and rule of law.

CO4: Furthermore, the students are expected to practice an active citizenship through participation in governance that promotes good democratic governance and collaborative learning.

Course Contents:

Unit – I

Conceptual frameworks: citizenship and social class, group-differentiated citizenship, multicultural citizenship, civil society and citizenship

Unit – II

Differentiated citizenship: Caste, Gender, and Religion in Social Inclusion and Social Exclusion perspective

Unit – III

Development of the concept of Democracy from Ancient Athens to Modern times: Direct and Indirect forms of Democracy

Unit – IV

Role of an Active citizen in a Democracy: Active Citizenship in Participation in Civil Society, Community and Political process

Course Title: Active Citizenship and Democratic Values
Paper Code: AC 40032

Program Educational Objectives (PEOs)

PEO1: To produce graduates who are socially responsible and ethically sound citizens.
PEO2: To equip students with critical thinking skills to analyze democratic governance.
PEO3: To foster professional leadership in community engagement and social engineering.

Program Specific Outcomes (PSOs)

PSO1: Analyze the theoretical underpinnings of citizenship, democracy, and social inclusion.
PSO2: Apply democratic values in real-world governance and community participation.
PSO3: Evaluate the impact of caste, gender, and religion on civil society and social justice.

Course Outcomes (COs)

CO1: Understand the meaning and significance of citizenship and its link to democratic governance.
CO2: Internalize and demonstrate values of social responsibility, justice, freedom, and human rights.
CO3: Analyze the role of caste, gender, and religion in social inclusion and exclusion perspectives.
CO4: Practice active citizenship through participation in governance and collaborative learning.

Mapping with Cross-Cutting Issues

Cross-cutting issue	Level Integration	Illustration components
Professional Ethics	High	Ethics in governance, accountability in voting, and social engineering responsibility.
Gender	High	Analysis of gender in social inclusion/exclusion (Unit II), inclusive citizenship.
Human Values	High	Justice, freedom, rule of law, and respect for diverse cultures.
Environment Sustainability	Medium	Community-led environmental initiatives, SDGs linked to responsible citizenship.

SDG Mapping for this Course

SDGs	SDG Titles	Nature of Contribution
SDG 4	Quality Education	Equipping students with skills for democratic participation and civic literacy.
SDG 5	Gender Equality	Addressing social exclusion and promoting group-differentiated citizenship.

SDG 10	Reduced Inequalities	Focus on caste, religion, and social inclusion to bridge societal gaps.
SDG 16	Peace, Justice and Strong Institutions	Promoting rule of law, human rights, and active participation in political processes.

SPECIAL PAPER – II (Choose any one)
(A) DEVELOPMENT ADMINISTRATION IN INDIA

Paper Code: DA40034

Course Objectives:

The paper will introduce the concept of development, the features and approaches to the study of development administration and the difference between public administration and development administration. With an overview on the role of international aid and development in development administration, the course will then deliberate extensively on the constitutional features of development administration and how development planning and machinery functions in India. This course enables the student to explore introduction to Development Administration, and the Political Process, citizens' participation and empowerment in the application perspective of Public Administration.

Course Outcomes

CO1: Understanding the basic concepts of Meaning, Nature, Scope of Development Administration.
CO2: Analyses the ideas of Political, Economic, Cultural, and Social and Development Administration.
CO3: Examine the Decentralization of Powers in India, State. District Administration and Field Agencies.
CO4: Analyse the Autonomy and Accountability of Administration.

Course Contents

Unit-I

Introduction to Development Administration:
a. Development Administration: Concept and Meaning
b. Elements of Development Administration.

Unit-II

Development Administration and the Political Process:

a. Role of Development Administration in India since Independence
b. The Machinery of Development- Role of Official and Non Official agencies

Unit-III

Bureaucracy and Development Administration:
a. The Changing Role of Bureaucracy and its Problems
b. The Specialist and Generalist Dichotomy in Democracy

Unit-IV

New Trends in People's Self Development and Empowerment:
a. Patterns of Peoples Participation in Development
b. Constitutional Provisions in Peoples self Development and Empowerment-73rd and 74th amendment to the Constitution of India

Text Books:

Mapping with Cross-Cutting Issues

Cross-cutting Issue	Level Integration	Illustration Components
Professional Ethics	High	Administrative accountability, anti-corruption measures, and bureaucratic neutrality.
Gender	Medium	Women's participation in PRIs (73rd Amendment) and gender-sensitive development planning.
Human Values	High	Citizen empowerment, social justice, and respect for marginalized sections in field agencies.
Environment & Sustainability	Medium	Sustainable local development models through 73rd/74th amendments and resource management.
SDG	**SDG Titles**	**Nature of Contribution**
SDG 4	Quality Education	Capacity building for citizens and officials regarding rights and administrative processes.
SDG 8	Decent Work & Economic Growth	Focus on rural and urban machinery that facilitates local economic opportunities and livelihoods.
SDG 11	Sustainable Cities & Communities	Role of 74th Amendment and district administration in urban governance and infrastructure.

SDG 16	Peace, Justice & Strong Institutions	Core focus on institutional accountability, decentralization, and effective bureaucracy.

6. SDG Mapping for this Course

INDIA'S FOREIGN POLICY

Paper Code: IF40034

Course Objectives:

The objective of this postgraduate course on India's foreign policy is to provide students with a comprehensive and critical understanding of the evolution, determinants, and institutional processes shaping India's engagement with the world. It aims to examine the continuity and change in policy frameworks, along with the roles of key actors such as the Prime Minister's Office, Parliament, and the Ministry of External Affairs in decision-making. The course further seeks to analyze India's bilateral and regional relations with its neighbours and major powers, while exploring its strategic participation in regional and global organizations such as SAARC, ASEAN, BRICS, and the United Nations. Emphasis is placed on India's role in an emerging multipolar world, its contributions to global governance, and its responses to pressing international issues including terrorism, climate change, nuclear policy, and energy security. Additionally, the syllabus is designed to familiarize students with recent developments in India's foreign policy, including its approaches to the Indo-Pacific and West Asia, thereby equipping them with analytical skills to interpret contemporary geopolitical trends and policy choices.

Course Outcomes

CO1: Analyze the key determinants of India's foreign policy and evaluate the elements of continuity and change in its evolution, along with the role of institutional actors such as the PMO, Parliament, and Ministry of External Affairs.

CO2: Examine India's relations with its neighbouring countries and assess the significance of regional groupings and policies such as SAARC, BIMSTEC, ASEAN, and the Look East/Act East policy.

CO3: Critically evaluate India's strategic relations with major global powers, including the USA, Russia, and China, in the context of changing global power dynamics.

CO4: Assess India's engagement with the emerging multipolar world through its interactions with international and regional organizations such as the European Union, BRICS, SCO, African Union, and GCC, as well as its role in the United Nations and peacekeeping efforts.

CO5: Analyze India's approach to major global challenges, including international terrorism, climate change, nuclear policy, and energy security, and evaluate its position and strategies in global governance.

Course Contents

Unit 1

- India's Foreign Policy: Determinants of foreign policy; Continuity and Change
- Making of India's Foreign Policy: PMO, Parliament, MEA

Unit 2

- India's Relations with Neighbours: SAARC, BIMSTEC, ASEAN, Look East & Act East policy
- India's Relations with Major Powers: USA, Russia, China

Unit 3

- India‘s Engagement with multipolar world: India‘s relations with European Union, BRICS, Shanghai Cooperation Organisation, African Union, Gulf Cooperation Council

Unit 4.

- India and the United Nations: Role in UN Peace Keeping, Demand for Reforms in the UN

Unit 5

- India‘s Approach to Major Global Issues : International Terrorism, Climate Change ; India‘s Nuclear Policy, Energy Security

- Recent developments in India‘s Foreign Policy: West Asia Policy, Indo-Pacific, Indian Ocean RIM

Professional Ethics	High	Diplomatic protocols, ethical governance in institutional decision- making (MEA/PMO), and norms of international law.
Gender	Medium	Inclusive diplomacy, the role of women in foreign service, and gendered impacts of migration and global conflict policies.

Human Values	High	India's role in UN Peacekeeping, humanitarian assistance during crises, and the philosophy of 'Vasudhaiva Kutumbakam'.
SDG	**Title**	**Nature of Contribution**
SDG 7	Affordable & Clean Energy	India's nuclear policy and international energy security partnerships.
SDG 13	Climate Action	Engagement with global climate governance and sustainability frameworks.
SDG 16	Peace, Justice & Strong Institutions	UN reforms, peacekeeping contributions, and counter-terrorism strategies.
SDG 17	Partnerships for the Goals	South-South cooperation, regional blocks (BRICS, ASEAN), and major power relations.

Artificial Intelligence in Political Science
Paper Code: PO40006

Course Objectives

Understand the fundamentals of Artificial Intelligence (AI) and its applications in Political Science. Analyse the impact of AI on political data analysis, forecasting, and decision-making. Examine the challenges and limitations of AI in Political Science, including issues of bias, transparency, and accountability. Develop critical thinking and research skills to evaluate the role of AI in shaping political outcomes.

Course Outcomes

CO1:. Students would understand the role of AI in political science
CO2: The course would familiarise the students with the origin of AI
CO 3: Students would also understand the importance of AI political forecasting
CO4: The course would also give a perspective about AI and its role in making governance more transparent.

Course Contents

Unit- I: Introduction to AI in Political Science
Overview of AI and its applications in Political Science
Historical context of AI in Political Science
Key concepts: machine learning, natural language processing, and deep learning

Unit II: AI in Political Data Analysis
Introduction to political data analysis, AI techniques for data analysis: clustering, decision trees, and neural networks,applications: election forecasting, public opinion analysis, and policy evaluation

Unit III: AI in Political Forecasting
Introduction to political forecasting
AI techniques for forecasting: machine learning, Bayesian methods, and simulation models
Applications: election prediction, conflict forecasting, and economic forecasting

Unit IV: AI in Decision-Making and Governance
1. Introduction to AI in decision-making
2. AI techniques for decision-making: optimization, game theory, and expert systems
3. Applications: policy-making, public administration, and international relations

Text books:

1. "Artificial Intelligence: A Modern Approach" by Stuart Russell and Peter Norvig
2. "Deep Learning" by Ian Good fellow, Yoshua Bengio, and Aaron Courville
3. "Political Analysis Using R" by James E. Monogan
4. "AI in Politics: Challenges and Opportunities" edited by Alex Sprintson and David Lazer

Special Paper –IV (TCPE)

TRIBAL MOVEMENTS IN INDIA WITH SPECIAL REFERENCE TO ODISHA

Paper Code: TC40052

Course Objectives

The paper will provide an understanding about the tribal movements of India. This paper will help to students to explore contemporary tribal movements in resisting authoritarian domination and power.

Course Outcomes-

CO1: To get familiarized with characteristics, stages and classification of tribal movements of India.
CO2: To know about Munda uprising, Kol insurrection, Santal rebellion; Rampa uprising and Bhagat movements of India.
CO3: To know about the basic themes of Naga movement, Khasi movement, Bodo movement and Jharkhand movement
CO4: To get acquainted with the features of the Ol-Chiki movement, Chipko movement, Save silent valley movement, Devi movement of Gujurat, Kandha and Bhuyan uprisings of Odisha. Also to know about changes in the social, economic and political life of Tribals.

Course Contents

Unit-I

1. Movement: Meaning, origin and characteristics; Stages of movement; Classification of movements.
2. Munda uprising, Kol insurrection, Santal rebellion; Rampa uprising between 1839-1924, Bhagat movements

Unit-II

1. Naga movement of Nagaland, Khasi movement, Bodo movement, Rebellion of Birsa Munda
2. Ol-Chiki movement, Chipko movement, Save silent valley movement, Narmada Bachaoandolan, Devi movement of Gujurat.

Unit –III

1. Tribes of Odisha, Features of Tribal Communities, Distribution of Major Tribes in Odisha
2. British Social reforms and Legislation, Kandha Rebellions under Dora Bisoyee and Chakra Bisoyee, Bhuyan uprising- Ratna Meli, Dharani Meli.

Unit –IV

1. Changes in socio-economic and political life of Tribals; Impact of Industrialization and Urbanization
2. Tribal Movements against mega "development" projects in Odisha

Mapping with Cross-Cutting Issues

Cross-cutting Issue	Level of Integration	Illustration Components / Examples in Syllabus
Professional Ethics	High	Ethical research in tribal areas, respect for indigenous knowledge systems, understanding constitutional rights and justice.
Gender	Medium	Role of tribal women in movements (e.g., Chipko, Devi movement), gendered impact of displacement and industrialization.
Human Values	High	Empathy towards marginalized communities, dignity of labor, respect for diverse cultural identities in resistance.
Environment & Sustainability	High	Analysis of Save Silent Valley, Chipko, and Narmada Bachao; tribal philosophy of ecological balance vs. mega-projects.

SDG Mapping for the Course

SDGs	SDG Titles	Nature of Contribution
SDG 4	Quality Education	Promotion of inclusive history and awareness of indigenous rights and political movements.
SDG 8	Decent Work & Economic Growth	Critiquing forced labor and displacement; advocating for sustainable livelihoods for tribal communities.
SDG 9	Industry, Innovation & Infrastructure	Evaluating the impact of infrastructure (Mega-projects) on vulnerable habitats and suggesting human-centric models.
SDG 15	Life on Land	Studying movements dedicated to forest conservation and sustainable ecosystem management by tribal groups.

THIRD SEMESTER

RESEARCH METHODOLOGY

RM50001

Course Outcomes:

On the completion of this course students should be able to:

CO1- Know the formulation of research problems and plan for their structural study.

CO2- Understand the scope of collection of relevant data and their interpretations

CO3- Learn the use of various statistical analysis for decision making.

CO4- Learn different quantitative methods, statistical techniques and qualitative methods to collect and analyze the data.

CO5- Adopt methodologies to build hypotheses and test them with appropriate methods.

Course Contents

UNIT-I INTRODUCTION TO RESEARCH (12 Lectures)

Meaning of Research, Philosophy of Research, Motivation of Research, Importance and Scope of Research, Scientific Research Methods and its Application to Social Phenomenon Introduction to various aspects of research methods, Types of Research.

UNIT-II RESEARCH DESIGN AND DATA COLLECTION(12 Lectures)

Research Design: Meaning, Need and features of a good design.Types of Research Design. Literature Review and its Importance, Steps in the Process of Research, Write a Research Proposal, Write qualitative research for publication/communication Sources and Methods of Data Collection

UNIT-III RESEARCH PROBLEM AND TYPES (12 Lectures)

Research Problem, Research objectives and its Formulation, Fundamental research questions, Research Variables, Measurement and Scaling: Measurement in Research, Measurement Scales, Source of Error in Measurement, Test of sound Measurement: Reliability and Validity. Qualitative Research, Ethnographic Study, Observation, Case Study Method, Interviewing, Schedule, Mail Survey Method, Action Research: PRA and RRA, Focused Group discussion (FGD)

UNIT-IV STATISTICS (12 Lectures)

Descriptive Statistics: Frequency Distribution, Relative, Percentage and Cumulative Frequency Distribution, Graph and Diagrams: Two Variables Graphs, Bar Diagrams, Pie Diagram, Pictorial Diagrams. Measures of Central Tendency: Mean, Mode, Median, Measures of Variability: Range, Standard Deviation, Coefficient of Variation, Normal Distribution: Basic Concept only, Standard Scores Correlation: Correlation Coefficient and its properties, Linear Regression: Regression coefficients, Line of Regressions, Relation between Regression Coefficients and Correlation Coefficient., Rank Correlation Coefficient, Biserial Correlation Coefficient, Coefficient of Determination

UNIT-V SAMPLING (12 Lectures)

Sampling: Need for Sampling, Methods of Probability Sampling and Non probability Sampling.

Sampling and Non sampling Error

Hypotheses: Concept of Population, Sample, Parameter and Statistic, Concept of Hypothesis, Types of Hypotheses, Formulation of Hypothesis, Procedure of Testing of Hypothesis, Test of Significance, One- tailed and Two-tailed Test, Testing of Single Mean and Difference of Means, Parametric and Non parametric Test, Variable Ananlyis.

Report Writing: Objective, Purpose of Report, Type of Reports, Report Writing Process, Guidelines for Effective Report Writing.

Mapping with Cross-Cutting Issues

Cross-cutting issue	Level Integration	Illustration components
Professional ethics	High	Ethical neutrality in research, prevention of plagiarism, informed consent in surveys, and data integrity.
Gender	Medium	Gender-disaggregated data collection, inclusive sampling, and addressing bias in social research.
Human values	High	Respect for respondents' dignity, cultural sensitivity in interviewing, and social responsibility in reporting.
Environment & Sustainability	Medium	Focus on Sustainable Development Goals (SDGs) within research designs and paperless digital data collection.

SDG Mapping for this Course

SDGs	SDG Titles	Nature of contribution
SDG 4	Quality Education	Equipping post-graduate students with advanced analytical and scientific inquiry skills.
SDG 8	Decent work & economic growth	Developing employable research skills for policy analysis, consultancy, and academic sectors.
SDG 9	Industry, Innovation & Infrastructure	Providing the methodological backbone for innovation through systematic data-driven problem solving.

COMPUTER APPLICATION AND DATA ANALYSIS
Paper Code: CA50005

Course Objective

Introduce students to fundamental computer applications and software tools used in academic research and professional work.Develop practical skills in data entry, data management, and data visualization using appropriate computer applications. Provide conceptual and practical knowledge of statistical techniques for data analysis. Enable students to use computer-based tools for quantitative and qualitative data analysis. Enhance students' ability to interpret, present, and report data effectively for research and decision-making.

Course Outcomes

CO1: Demonstrate proficiency in basic computer applications **such as word processing, spreadsheets, and presentation software.**

CO2: Apply data management techniques **including coding, classification, and tabulation using computer tools.**

CO3: Use statistical software and computer applications **to perform data analysis and generate outputs.**

CO4: Analyze and interpret quantitative and qualitative data **using appropriate analytical techniques**

Course Contents

Unit - I: Computer Basic and Computer Fundamental

- Hardware and Software. Functional units comprising a typical computer configuration: input/output, fixed and removable data storage, internal storage, control and arithmetic/logic unit. The concepts relating to execution speed, data access times, storage capacities and similar comparative aspects of hardware performance.
- Operating Systems, Windows, Linux etc. Application software, role and functions of commonly available applications
- Computer Network Concept- Data communication and network terminology, IP address and its significance, Internet, Multimedia, WWW, FTP, E-mail, and Web pages. Concept of VPNs. Concept of Network security and management.

Unit-II: Computer Application

Microsoft word

- Creating and editing documents, formatting text and paragraph, formatting documents, creating and formatting tables, illustration documents with graphics. Creating a web page, mail merge and document merging, working with styles and templates, developing multi-page documents, integrating word with other applications, exploring advance graphics, building forms. working with charts and diagrams

Unit-III: Microsoft Excel

- Building and editing worksheets, formatting a worksheet, working with charts, working with formulas and functions, managing workbooks and preparing them for the web, automating worksheet tasks with macros, using lists, analyzing list data, enhancing charts and worksheets Using analysis tools, analyzing data with pivot tables, exchanging data with other programs.

Unit-IV: Microsoft PowerPoint

- Creating a presentation with Microsoft PowerPoint, modifying a presentation, inserting objects into presentation, finishing a presentation, working with advanced tools and masters, enhancing charts, inserting illustration, objects and media clips, using advanced features.

Unit V: Statistical Analysis [10 Classroom Contact Hours]

The analysis will be done with the help of SPSS, and other statistical packages.

The syllabus includes the following topics: Descriptive Analysis: Mean, Median, Mode, Standard Deviation, Correlation. Regression Analysis, t- test, chi-square test, R-Square test, Factor Analysis, ANOVA, NVIVO, SPSS., JAMOVI, AMOS.

Note: 1 – Weakly mapped (Low) | 2 – Moderately mapped (Medium) | 3 – Strongly mapped (High) | "-" – No correlation

Mapping with Cross-Cutting Issues

Cross-cutting Issue	Level Integration	Illustration Components
Professional Ethics	High	Privacy-by-design, consent management in data collection, secure coding practices, and accessibility compliance.
Gender	Medium	Use of inclusive user personas in data scenarios, bias-aware UI design examples.
Human Values	Medium	User-centric design, respect for diverse culture in digital consent and reporting.
Environment Sustainability	Medium	Lightweight web pages, energy-aware digital design, and promoting SDG-related web content.

SDG Mapping for the Course

SDG	SDG Titles	Nature of Contribution
SDG 4	Quality Education	Providing skills for creating education and community web/data resources.
SDG 8	Decent Work and Economic Growth	Building employable skills in office automation and junior data analyst roles.
SDG 9	Industry, Innovation and Infrastructure	Developing digital products as infrastructure for institutional innovation.
SDG 12	Responsible Consumption and Production	Encouraging efficient and responsible design of digital products and paperless workflows.

RESEARCH AND PUBLICATION ETHICS

Paper Code: RE50003

Course Objectives

This course has focusing on basics of philosophy of science and ethics, research integrity, publication ethics. Hands on sessions are designed to identify research misconduct and predatory publications. Indexing and citation databases, open access publications, research metrics (citation, hi-index, impact factor etc.) and plagiarism tools will be taught in this course.

Course Outcomes

CO1: Understand the fundamentals of research ethics by explaining ethical principles, values, and responsibilities involved in scholarly research.

CO2: Identify ethical issues in research including plagiarism, fabrication, falsification, duplicate publication, and authorship misconduct.

CO3: Apply ethical guidelines and regulatory frameworks in the conduct of research.

CO4: Demonstrate responsible research practices in data collection, analysis, storage, and reporting.

Course Contents-

Unit: I- Philosophy and Ethics

- Introduction of philosophy: Definition, nature and scope, concept, branches
- Ethics: Definition, moral philosophy, nature of moral judgments and reactions.

Unit: II- Scientific Conduct:

- Ethics with respect to science and research,
- Intellectual honesty and research Integrity
- Scientific Misconducts: Falsification, Fabrication anmd Plagiarism (FFP)
- Redundant Publications: duplicate and overlapping publications, salami slicing
- Selective Reporting and misrepresentation of data

Unit: III- Publication Ethics

- Publication Ethics: Definition, introduction and importance
- Best practices/standards setting initiatives and guidelines: COPE, WAME etc.
- Conflicts of interest
- Publication misconduct: definition, concepts, problems that lead to unethical behaviour and vice versa, types
- Violation of publication ethics, authorship and contributor ship
- Identification of publication, misconduct, complaints and appeals
- Predatory publishers and journals

Practice

Unit-IV- Open Access Publishing:

- Open access Publications and Initiatives
- SHERPA/RoMEO online resource to check publisher copyright and self achieving policies
- Software tools to identify predatory publications developed by SPPU
- Journal finder/journal suggestion tools viz. JANE, Elsevier Journal finder, Springer journal suggester, etc.

2. Mapping with Cross-Cutting Issues

Cross-cutting Issue	Integration Level	Illustration Components
Professional Ethics	High	Scientific integrity, avoiding FFP (Falsification, Fabrication, Plagiarism), COPE guidelines, and conflict of interest disclosure.
Gender	Medium	Inclusive authorship practices, avoiding gender bias in data reporting, and ensuring diverse representation in research committees.
Human Values	High	Intellectual honesty, respect for intellectual property, moral judgments in research conduct, and transparency.
Environment & Sustainability	Medium	Open access initiatives reducing digital divide, efficient data storage (digital footprint), and promoting sustainable research practices.

3. SDG Mapping (Sustainable Development Goals)

SDG No.	SDG Title	Nature of Contribution
SDG 4	Quality Education	Promoting high-quality, ethical scholarly communication and equipping researchers with global standards of integrity.
SDG 8	Decent Work and Economic Growth	Enhancing employability by training in standardized research tools, plagiarism software, and citation databases.
SDG 9	Industry, Innovation and Infrastructure	Strengthening the digital infrastructure of Open Access and ensuring robust intellectual property frameworks for innovation.
SDG 12	Responsible Consumption and Production	Promoting ethical "production" of knowledge and reducing redundant/wasteful publications (salami slicing).

PUBLIC POLICY AND WELFARE ADMINISTRATION

Paper Code: PP50031

Course Objectives

The paper seeks to provide an introduction to the interface between public policy and administration in India. The essence of public policy lies in its effectiveness in translating the governing philosophy into programmes & policies and making it a part of the community development. It deals with issues of decentralization, financial management, citizens and administration and social welfare from a non-western perspective.

Course Outcomes

CO1: This course is meant to complement the other course in the discipline relates to administrative theory. It will ground the students' understanding on Public Policy in the Indian and other context so that there is an acquaintance with the ground realities of policy making and implementation.

CO2: The students are introduced to theoretical perspectives on public policy, a major sub-discipline of public administration.

CO3: This paper focuses specially on the Indian context, so the students become familiar with details of public policy adopted in India.

CO4: This paper aims at familiarising students with the broader theoretical, financial and practical context in which public policies are discussed, justified, designed and sought to be implemented.

Course Contents

Unit – I

Public Policy

a. Meaning, Nature and Scope

b. Evolution of the discipline

c. Significance of Public Policy

d. Intellectual foundation of Public Policy

Unit – II

Approaches to the Study of Public Policy

a. Group Approach

b. Incremental Approach

c. Rational Choice Approach

d. System Theoretic Model

Unit – III

Public Policy Making and Implementation

a. Governmental Policy making agencies

b. Non-governmental policy making agencies /actors

c. Role of Transnational Actors

d. Implementation and Evaluation

Unit – IV

Policy Analysis in India

a. Agriculture Policy

b. Industrial Policy

c. Policy for Backward Classes and Minorities

d. Women Empowerment Policy

SDG 5 & 10	Gender Equality / Reduced Inequalities	Direct focus on Women Empowerment and Policies for Backward Classes/Minorities.

CONTEMPORARY GLOBAL ISSUES

Paper Code: CG50031

Course Objectives

This course aims to provide postgraduate students with a critical understanding of the major transformations and debates in contemporary international relations after the end of the Cold War. It seeks to familiarize students with the emergence of uni-polarity, American hegemony, and competing visions of the New World Order while encouraging analytical engagement with different perspectives on the future of global politics. The course further introduces important theoretical approaches such as Functionalism and Neo-Functionalism in order to examine processes of regional integration and the idea of world government. Through the study of Dependency Theory, World System Analysis, and debates on new imperialism, students will develop an understanding of the political economy dimensions of international relations and the unequal structures shaping the global order.

Course Outcomes

CO1: Critically examine the transformation of international relations after the end of the Cold War, including the emergence of uni-polarity, American hegemony, and the debates surrounding the New World Order and alternative global futures.

CO2: Analyze the major theoretical approaches of Functionalism and Neo-Functionalism and evaluate their relevance to regional integration, international cooperation, and the idea of world government.

CO3: Assess the political economy dimensions of international relations through an understanding of Dependency Theory, World System Analysis, and contemporary debates on new imperialism and global inequality.

CO4: Interpret alternative and contemporary approaches to security by examining issues such as environmental security, human security, peace and development, and the privatization of security in global politics.

CO5: Evaluate major contemporary global concerns including international terrorism, environmental challenges, migration and refugee crises, human rights, and humanitarian intervention using critical and analytical perspectives.

Course Contents

Unit-I

End of Cold War; Uni-polarity, American Hegemony and New World Order, Contending Images of Global Future **Unit-II:**

Functionalism and Neo- Functionalism: Approaches to National Integration and World Government

Unit-III

Political Economy of International Relations: Dependency Theory, World System Analysis, New Imperialism Debate

Unit-IV

Alternative Perspectives on Security: Environmental Security, Peace and Development, Human Security and Security Privatization

Unit-V:
Contemporary Global Concerns: International Terrorism, Environmental Concerns, Migration and Refugees, Human Rights and Humanitarian Intervention.

Mapping with Cross-Cutting Issues

• **SDG Mapping for the Course**

SDG No.	SDG Titles	Nature of contribution
SDG 4	Quality Education	Critical understanding of global structures and theoretical literacy in international relations.
SDG 10	Reduced Inequalities	Addressing global inequality through World Systems Analysis and Dependency Theory perspectives.
SDG 13	Climate Action	Focus on environmental security and the global political response to environmental challenges.
SDG 16	Peace, Justice & Strong Institutions	Study of international terrorism, human rights, and the role of world government and integration.
SDG 17	Partnerships for the Goals	Evaluating regional integration, neo-functionalism, and global cooperation frameworks.

INDIAN POLITICAL THOUGHT

Paper Code: PP50033

Course Objective

The objective of this course is to provide students with a comprehensive understanding of the evolution of modern Indian political thought through the ideas and contributions of key thinkers from the 19th and 20th centuries. It seeks to critically examine the philosophical foundations, socio-religious reform movements, and nationalist ideologies articulated by figures such as Raja Rammohun Roy and Bal Gangadhar Tilak, as well as the spiritual and cultural perspectives of Swami Vivekananda and Sri Aurobindo. The course further aims to analyze diverse political ideologies including Gandhian thought, revolutionary nationalism, and radical humanism through the works of Mahatma Gandhi, V. D. Savarkar, and M. N. Roy. It also explores themes of social justice, democracy, and socialism in the ideas of B. R. Ambedkar, Jayaprakash Narayan, and Ram Manohar Lohia. Finally, the course seeks to assess the contributions of Jawaharlal Nehru and Deendayal Upadhyaya in shaping modern India's political and ideological landscape, enabling students to develop critical insights into competing visions of nation-building and governance.

Course Outcomes

CO1: Explain the socio-religious reform ideas and nationalist thought of Raja Rammohun Roy and Bal Gangadhar Tilak, and assess their contributions to the early phase of modern Indian political thinking.

CO2: Analyze the philosophical and spiritual foundations of nationalism as articulated by Swami Vivekananda and Sri Aurobindo, with reference to culture, religion, and identity.

CO3: Critically evaluate diverse ideological perspectives such as non-violence, Hindutva, and radical humanism through the works of Mahatma Gandhi, V. D. Savarkar, and M. N. Roy.

CO4: Examine the ideas of social justice, democracy, and socialism in the thought of B. R. Ambedkar, Jayaprakash Narayan, and Ram Manohar Lohia.

CO5: Assess the contributions of Jawaharlal Nehru and Deendayal Upadhyaya in shaping modern Indian political ideology and evaluate their relevance in contemporary political discourse

Mapping with Cross-Cutting Issues

Cross-cutting issue	**Level Integration**	**Illustration components**
Professional Ethics	High	Ethics of conservation, respect for indigenous knowledge systems, spiritual integrity.
Gender	Medium	Role of tribal women in nature worship and forest produce collection/preservation.
Human Values	High	Respect for all life forms, deification of nature, community living, and empathy.
Environment Sustainability	High	Indigenous forest conservation, sacred groves, sustainable water management (Apa Suktam).

SDG Mapping for Tribal Eco-Spiritualism

SDGs	SDG Titles	Nature of contribution
SDG 4	Quality Education	Promoting appreciation of cultural diversity and indigenous contribution to sustainable development.
SDG 13	Climate Action	Utilizing tribal traditional knowledge and nature worship for climate resilience and forest preservation.
SDG 15	Life on Land	Protection of biodiversity through deification of animals and sacred forests (Tribal attitude to animals/forests).
SDG 12	Responsible Consumption	Aligning tribal lifestyles (minimalist, nature-centric) with sustainable production patterns.

FOURTH SEMESTER

Fieldwork and Dissertation

Paper Code: FD 50082

Course Objectives

The aim of this course is to provide a wide-ranging understanding of the historical research work and make students acquainted with various types of data collection. This course also aims to able the students to make data analysis and writing report.

Course Outcomes

CO 1: The students who successfully complete this course will understand the different aspects of historical research works and develop their skills in various types of data collection, interpretation and presentation.

CO 2: After this course the students will be able to explore the different problems of historical research works and they will gain skill in fieldworks, data analysis and report writing.

CO 3: This course will help the students to interpret different problems / issues faced in their historical research works.

CO 4: The students through this paper assess the data presentation and documentation in an effective way.

Course Contents

Fieldwork and Report Writing: Each student shall have to undergo training for learning and use of different techniques of scientific data collection during 15 days of fieldwork under the supervision of a teacher, as nominated by the Head of the programme/Department in a tribal / rural area. The exact date of commencement of fieldwork shall be announced by the Head of the school/Department. Student failing to complete the fieldwork in a particular year can only clear the paper by completing field work in next year.

Dissertation: Dissertationis to be prepared by the student under the supervision of the concerned teacher. The student is required to submit the dissertation through the supervising teacher to the Head of the programme/Department for its evaluation at least fifteen days in advance of the date notified for examination. The dissertation shall be evaluated by an external examiner in consultation with the internal examiner (the supervising teacher). The candidate shall be awarded grade both by the internal and external examiners on the basis of his / her dissertation, seminar presentation and viva voce. Evaluation pattern will be 50 marks for dissertation, 30 marks for presentation and 20 marks for viva voce.

Viva-voce on Research Project and Dissertation include for Evaluation

Dissertation based on 30 day's fieldwork	50 Marks
Seminar Presentation and Field Dairy	30 Marks
Viva voce test on dissertation	20 Marks

The Dissertation has to be submitted by the student positively before the end semester examination.
